

Bowmandale's Vision for Science

Straight... True... Successful

Bowmandale Primary School seeks to provide high quality Science teaching. Through our practical and enjoyable curriculum, we promote and develop transferable skills; such as observation, communication and team work. Our children are encouraged to have an enquiring mind and to ask questions and be questioned. Our curriculum aims to inspire and excite our children and foster a thirst for knowledge. In a world that is increasingly shaped by science and technology, we aim to equip our pupils for the wider world.

Children are actively engaged in practical lessons and exploratory tasks.

Children's own interests have been considered.

Children can confidently and accurately use scientific language.

There is a sense of awe and wonder in the classroom.

Children are asking their own questions about the world around them.

Children are given opportunities to answer their own questions.

Science teaching and learning is good in our school when...
